Job Description: Rental Lead Shop Technician

Promote Gen-Tech as the industry lead in power generation. Present a professional image at all times, provide mentoring and guidance for lower ranking rental technicians. Possess a positive attitude, great customer service skills, observe all company safety regulations, insure all company policies and procedures are followed, and follow employee handbook guidelines.

Position reports to: Rental Manager
Pay Grade: Probationary Period – 90 Days

Duties/Responsibilities:

- Provide technical support for all rental technicians working at all locations.
- Confirm that all shop repairs performed on Rental Equipment are done to **GEN-TECH** standards by performing quality control checks and verifications.
- Communicate any quality of work, equipment, and repair issues to Rental Manager.
- Maintain technical information, repair manuals or other data, maintenance kits, and parts information for rental equipment.
- Communicate with Rental Service Coordinator to manage internal work orders.
- Lead, mentor, and train lower ranking Rental Technicians at all company locations as needed/directed on rental equipment repairs, troubleshooting, and maintenance.
- Perform on-site job surveys as needed.
- Available 24/7 for Emergencies.
- In Shop Project Management.
- Assist in promoting and the implementation of ideas to improve the Rental Department efficiency and productivity.

Training/Certifications:

- Isuzu, Mitsubishi, Cummins, John Deere, and Caterpillar Engine Certifications.
- Doosan certifications.
- Portable Air Compressor Maintenance and Application Training.
- MSHA Certified and ARC Flash Training.
- OSHA 10 hour.
- Forklift Certification.

Skills/Qualifications:

- Proven experience/proficiency and extensive knowledge with Portable/Towable Generator maintenance, troubleshooting, and repair to include engines, controls, and breakers.
- Minimum of 2-years power generation experience and RT1 experience.
- Extensive knowledge of D/C and A/C electrical systems.
- Extensive knowledge of Diesel engine maintenance, repair, and troubleshooting.
- Fabrication experience: welding, pipe threading, etc
- Clean driving record.
- Provide/Maintain personal hand tools.
- Great customer service, communication, and leadership skills.
- Computer skills including excel, outlook, and operational software.
- In-Depth Knowledge of Rental Fleet Software/Firmware, Controllers, and Transfer Switches.
